Transforming learning and life outcomes

LDS (Learning Disabilities Society) is a nonprofit charitable organization that has provided expert learning support to children and youth with suspected or diagnosed learning differences for over 50 years.

Through our one-to-one foundational and explicit instruction programs, LDS empowers unique learners to recognize their strengths, gain confidence, and achieve lifelong confidence and success. We design specialized programs that enable students to catch up to their classroom peers up to an average of a 1/2 grade level per year!

With the ongoing generosity of our supporters, we are able to provide bursaries to families in need and transform the learning and life outcomes of over 600 children and youth this year.

83%

LDS students are maintaining or improving their standings in literacy relative to general classroom norms.

76%

LDS students are maintaining or improving their standings in math relative to general classroom norms.

71%

71%+ of our students are in need and benefit from our bursary support to access the learning support they need and deserve.

LDS provides the most comprehensive and responsive support services I'm aware of outside schools and in communities.

Join us for a special day

Enjoy a day on the scenic course with engaging entertainment, delicious food and impeccable company.

Take the opportunity to engage more deeply with LDS's leaders about our transformative work empowering children, youth and adults with learning differences to thrive and achieve lifelong independence, confidence, and success.

This event will be a premiere opportunity to network with business, legal, investment and community leaders in Vancouver, the North Shore and the Sea to Sky.

All proceeds will go directly to provide critically needed support for vulnerable kids with learning disabilities in our community.

Thank you

Like you, we believe that access to expert, specialized learning supports should be available to all children and youth, regardless of their ability to pay.

Thanks to donors and sponsors like you, hundreds more students in the lower mainland and across BC will have access to the critical learning supports they need this year.

Together we are making a transformative difference in the lives of children across BC.
