

SKILLS FOR TRADES REFERRALS

Skills for Trades is a vocational program designed for skilled trades apprentices and workers, helping them reach their learning and career goals through individualized support and tailored learning profiles.

We welcome referrals from partners supporting individuals pursuing apprenticeships or trades who could benefit from our neuroaffirming learning support.

SKILLS FOR TRADES IS OPEN TO INDIVIDUALS WHO:

- Are interested in exploring or preparing for work in the skilled trades
- Identify as neurodivergent or experience learning differences (no formal diagnosis required)
- Would benefit from one-to-one learning and individualized support

REFERRERS CAN SUPPORT LEARNERS BY:

- Providing the learner with our program poster or digital flyer
- Discussing whether the program might be a good fit
- Helping the learner access the application link if needed

Learn.
Develop.
Succeed.
